Official E-Memo of Chief Black Dog District

Model Rocket Launch Day

Our 8th Annual Model Rocket Launch Day is this Saturday, August 2 at the Falcon Ridge Space Center (Falcon Ridge Middle School). Very sorry about the late notice. This is a co-sponsored event with the Boy Scouts of America and Community Education Space Challenge Camp and there is no fee. We will launch from the fields east of the school. Check-In begins at about 9 am and launches begin about 10 am and usually wraps up by noon. A flyer will be available on the CBD(G!) website.

Bring a Friend

This event is open to scouts of all ages, parents, grandparents, siblings, friends and neighbors. Come to watch, help, and they can bring their own rockets to launch. We emphasize bring a friend, because all new Cub Scouts who join after August 1st will receive a free rocket kit and you can launch it at our District Model Rocket Launch Day, Saturday, October 11.

Cub Activities Included

There will also be several Cub Scout activities planned for year's event. Enough to keep everyone busy – something for everyone. Included will be a place for visitors and potential new Cub Scouts and parents to learn more about Scouting.

Come on out, bring a friend and the share the fun and adventure of Scouting and encourage a friend to join!

No preregistration needed – Questions can be directed to [Steve Engel](#).
